<b>Technical Query</b>			
1	Surface preparation by Shot Blasting as per grade SA 2 1/2, IS 9954 / ISO 8501/ IS 7285 (Part 2):2017. Three coats of paint shall be applied with minimum thickness of 300 micron. The recommended painting system should be of Category C5-I Very high (Industrial) as specified in the Standard ISO 12944 Part 1 to 8. The proposed Painting system shall conform to Table A 5 of ISO 12944 – 5 Standard	<b>1) For Frame-</b> Paint coat thickness 300 micron has the tendency to peel off. Hence, EKC propose to offer final paint thickness of ~140 microns with each coat thickness of 4-60 microns. Please confirm. Frame surface preparation shall be sand blasted instead of shot blasting. Shot blasting is not allowed for open frame as it is hazardous for the workers and the environment.	1. Shot blasting & Sand blasting both are accepted. 2. In terms of paint coating Tender condition prevails.
2	The interconnecting tube work shall be minimum of 3/4"OD tubing except pressure gauge lines & vent loops.	The Vent tubing shall be of 3/8" OD include Pressure Gauge Line and Vent Loop.	Tender condition Prevails
3	Specifying that the cylinder has been manufactured for "CNG only"	Kindly note that Cylinder labeled with CNG ONLY with extrnal Sticker would be provided as the Cylinder Manufacturer are designed as Per Peso guidelines and CNG etched on the neck of cylinders.	Noted
4	Makes of these fittings shall be of SS 316/ SS 304 of Swagelok, Parker	Kindly include ,HYLOK,Superlok Valves and fittings in the approved Vendor List .Super lok Make fittings is already approved in the CGD Sector.	As per clause no 14.0 of technical volume, equivalent make is defined as "The material having supplied to any CGD vendor / company in India and successfully working for minimum one year.
5	Valves will be within fence enclosure.	Kindly note that Junction box is provided seperately for housing Gauges, Valves etc .No Separate Fencing is provided for protection of Cylinders Valves.	Tender condition Prevails
6	Material of vent tubing shall be SS316/SS304 and make shall be of Sandvik / Tubacex/ FAE/ Ratnamani	It is bidder request to kindly include Copper tubing with Brass Fittings (OEM make) in the vent line as the Pressure in the Vent line is somewhat less or comparable(intermittently when venting) to Main Pressure Line.The Main pressure line tubing will be used SS-316.	Tender condition Prevails
7	Three coats of paint shall be applied with minimum thickness of 300 micron.	Upto 150 mm thickness of Cylinder Paint is enough to sustain external environment conditions or bright sun light	Tender condition Prevails
8	All Mobile storage system should be supplied in a single bank arrangement.(TYPE I)	Kindly note that as per tender specifications All Mobile storage system should be supplied with single Bank arrangement means that with Only Pressure Gauge,NRV design only for single Bank system .	Refer to SOR
9	Cascade frame shall be MS welded; shot blasted and epoxy painted instead of Galvanized.	Metal frame with Three coat is enough to prevent Corrosion.Shot Blasting of Metal Frame is not required.High quality surface finish can be obtained through mechanical rubbing to have fine surface with coating of high quality primer and paint & as such shot blasting is not needed.	Refer to Sr.No. 1 of technical query of this documents
